SUMMARY

Full Stack Developer with strong experience in **React.js, Node.js, MongoDB, AWS, and DynamoDB**. Skilled in building fast, responsive web apps and custom Shopify e-commerce solutions. Able to manage both frontend and backend tasks, create APIs, and work with cloud services. Focused on clean code, performance, and user-friendly design. Good at solving problems and working in teams or alone to deliver projects on time.

SKILLS

| AWS | DynamoDB | Lambda Function | EC2 Instance | S3 Bucket | Shopify E-Commerce | ReactJS | NextJS |

| NodeJS | MongoDB | GIT-CLI | GITHUB |

EXPERIENCE

Full Stack Developer

WebGarh Solutions

📅 09/2022 - Present   📍 Mohali, Punjab

WebGarh Solutions offers e-commerce development, web design, internet marketing, and software development services, specializing in custom web/mobile applications and Shopify apps.

- Led end-to-end design, development, and deployment of full-stack web and e-commerce applications using **React.js**, **Node.js**, **MongoDB**, and **AWS** services including **DynamoDB.**
- Successfully delivered 100+ custom web/mobile and Shopify projects, ensuring smooth implementation, performance optimization, and user adoption.
- Applied strong knowledge of scalable architecture, change management, and CI/CD processes to support major product rollouts and system upgrades.

Full Stack Developer

Entero Healthcare

📅 01/2022 - 09/2022   📍 Faridabad, Haryana

Entero Healthcare Solutions provides healthcare product distribution, supply chain management, and digital procurement services, specializing in seamless delivery to pharmacies, hospitals, and healthcare institutions across India.

- Actively learning and building backend services and APIs using **Node.js** and **MongoDB** for web and e-commerce applications.
- Completed multiple hands-on projects focused on custom web/mobile, emphasizing smooth deployment, performance, and user experience.
- Gaining strong understanding of scalable architecture, change management, and CI/CD workflows through practical training and self-driven development efforts.

PROJECTS

Custom PC Builder (Shopify App)

🔗 https://lahlou-industrie.com

Developed a **Custom PC Builder** solution integrated with Shopify and a mobile app, allowing users to purchase pre-built PCs or create fully customized systems

- Implemented an AI-powered recommendation engine to guide users in selecting compatible components based on performance needs, budget, and use case

Rebato (Shopify App)

🔗 https://apps.shopify.com/search?q=Rebato

Shopify Rebato App – A smart discount and cashback engine designed to boost conversions on Shopify stores

- Constructed custom logic to manage dynamic discount rules, cashback offers, and reward tracking through Shopify's Admin and Storefront APIs.
- Executed a user-friendly merchant dashboard and automated workflows to simplify offer creation, customer engagement, and sales analytics.

PROJECTS

RxCompound Application

🔗 https://rxcompoundapp.webgarh.net

RxCompoundApp – A pharmacy compounding solution planned to streamline prescription management and custom medication requests.

- Built a user-friendly platform enabling patients to request compounded prescriptions and pharmacists to manage formulations, approvals, and order tracking.
- Applied role-based dashboards, secure data handling, and real-time prescription status updates for enhanced transparency and workflow efficiency.

Dropshipping Web Application

Dropshipping is a process where products from one platform are displayed and sold on another platform with various modifications.

- A key feature of this application is its ability to fetch product data from Shopify and seamlessly sync it to the user's own website using Shopify APIs.
- Webhooks are also enforced to ensure real-time updates whenever changes are made on Shopify.
- Additionally, the system supports automated inventory and pricing updates to maintain accuracy across both platforms.

Dating Website Application

🔗 https://discreetconnect.fun

DiscreetConnect – A privacy-focused dating platform created for meaningful and discreet connections.

- Enhanced a secure, scalable web application with real-time chat, profile matching, and location-based discovery features.
- Add advanced privacy controls, user verification, and AI-based compatibility algorithms to enhance user trust and experience.

Universole

🔗 https://www.universolefit.com

A custom insole e-commerce platform offering personalized foot comfort solutions through a guided buying experience

- Expanded a dynamic Shopify-based store with a custom quiz flow to recommend insoles based on user input such as activity level, foot type, and lifestyle.
- Incorporated advanced product filtering, subscription options, and seamless checkout to enhance user engagement and drive conversions.

Sigstore

A chatbot-enabled ordering platform built for lightning-fast order creation in under a minute.

- Built a conversational chatbot interface using the SIGNAL app for the frontend, allowing users to place orders seamlessly with minimal input.
- Improved a robust Node.js backend to handle real-time order processing, validation, and integration with inventory and payment systems.

Sleeptight

🔗 https://sleeptightmouthpiece.com

SleepTight Mouthpiece – A Shopify-based e-commerce website offering FDA-cleared anti-snoring and sleep apnea mouthpieces with a **"Try Before You Buy"** option.

- Produced a custom storefront that promotes the trial offer, allowing customers to test the product before committing to a full purchase.
- Enhanced user experience with trust-building elements like clinical approvals, detailed product education, and seamless checkout for both trial and standard orders.
